# Nudity Ruling Upset

Journal Washington Bureau

Washington, D. C.—The US Supreme Court Monday overturned a lower court decision that had allowed nude dancing in Racine and Kenosha taverns. In an 8 to 1 decision, written by Justice William Rehnquist, the high court sent the case involving nine taverns in the two cities back to the Federal Court in Milwaukee.

It ordered the district court to reconsider the case in the light of other Supreme Court decisions.

Racine and Kenosha denied liquor licenses in 1971 to the taverns, which featured nude and seminude dancing. The tavern operators appealed, arguing that they had not been given hearings.

A three judge district court subsequently ruled that the cities' licensing procedures were unconstitutional. The court allowed nude dancing to continue.

However, last December, the Supreme Court ruled in a California case that states and local

authorities had broad authority to prohibit lewd or nude entertainment in bars and nightclubs that sell liquor.

The Supreme Court Monday ordered the District Court to reconsider the Racine-Kenosha case in the light of the California decision.

Authorities in the two cities, independently of the case, already have used the California decision to end nude dancing in the taverns, so it appears doubtful that Monday's decision will bring any changes.

Involved in the case are six Kenosha licensees, Sleepy's, Inc. Fred Kauzrich, Charles Witonton, Peter G. Bruno, Bruce Bleashka, Jeannette Stenzel, and these licensees from Racine: Richard A. Misurilli, Terrance McCue, Theodore F. Witheril, Jerome Ruetz Jr., David H. Robers and Go-Go of Racine, Inc.

The dissenting vote in the 8 to 1 decision was cast by Justice William O. Douglas.

# Judge Slaps Down Ban on Massages

Authorities in Racine were enjoined Wednesday from enforcing a law which prohibits a massage parlor employee from massaging the body of a person of the opposite sex.

Federal Judge Myron L. Gordon made the ruling in a lawsuit that was started by Valley Health Systems, Inc., of Racine, and Sandra Micali, principal shareholder and a worker at Valley Health.

Female employees at Valley Health have been giving massages to male customers since November, 1972, according to Gordon's decision.

In April, 1973, the Racine

Common Council enacted an ordinance governing the operation of massage parlors. Among other things, the ordinance requires that massagers at commercial parlors be licensed and that they not give massages to persons of the opposite sex.

Valley Health employees have frequently been charged with violations of the ordinance.

While a municipality could require, licensing of passengers, Gordon ruled, it would be unconstitutional for it to prohibit a person from massaging the body of a person of the opposite sex.

# Agency postpones hearing on Harris

The Police and Fire Commission met for about 15 minutes Thursday night before deciding in closed session that its public hearing on misconduct charges against Racine Police Lt. Sylvester Harris should be postponed.

The hearing — to consider two charges filed earlier this month against Harris, head of the department's community relations division — was reset for Aug. 2 at the request of Harris' attorney, Martin Hanson.

Hanson asked for the delay because Police Chief Donald Dodge, who filed the complaint with the commission, was not at Thursday's hearing. Dodge is on vacation until Monday.

"We request the adjournment for the reason that the complaining witness, Chief Donald Dodge, is not present at this meeting," Hanson told the commission. "Because of the nature of the charges and the circumstances surrounding them, we feel he is a necessary witness."

The complaint against Harris, initiated by Patrolman Gerald Gayhart and signed by Dodge, says Harris violated two Police Department rules and "acted in a manner reflecting discredit upon himself and this department."

In-house police attorney Alvin Berndt, representing Dodge, said

he though the Thursday hearing should continue despite Dodge's absence.

"I prefer the matter be taken care of now," Berndt said. "I don't feel Chief Dodge is a necessary witness. We have the complaint and sufficient witnesses here to support the complaint."

Commission Chairwoman Sophie Stapanian then said she and the other four commissioners would privately discuss Hanson's request.

When the Commission returned about five minutes later, Stapanian announced the request for adjournment was granted.

Hanson agreed to waive any statutory time limits for the hearing.

Stapanian then said the Commission had set 7 p.m. Aug. 7 as the adjourned hearing date. She added that it will again be held in the chief's conference room at the Police Department, where half a dozen chairs were available for some 20 observers who showed up Thursday.

Asst. Police Chief Milton Hagopian located more chairs which were moved into the conference room for most of the observers.

Stapanian earlier had told a reporter, "We aren't going to have another circus like the last time," when more than 100 persons attended both sessions of a commission hearing last year on brutality charges filed by a citizen against a patrolman. Those sessions were held in the Police Department auditorium.

Patrolman Gayhart's complaint accuses Harris of making racial remarks concerning Gayhart's attitude toward blacks.

The commission, should it find Harris guilty, could impose punishment ranging from a reprimand to dismissal.

SUBJECT: CRIME CONDITIONS IN KENOSHA RA

This memo is being prepared for information purposes and no investigation is being requested. It is left to the discretion of SA [redacted] if further activity is warranted.

On 1-23-75, an official of the FAA in Wausau, Wisconsin (who wishes not to be identified in any manner), confidentially advised that at approximately noon on 1-22-75, a small private plane had landed at Central Wisconsin Airport with minor motor trouble. The plane was on the ground for two hours and it was observed that the plane was transporting two Negro females who appeared to be prostitutes (characterization by the FAA official). The plane departed at 2 p.m. for destination unknown.

The official provided the plane number as N8415T and described it as a Cesna aircraft. It is owned by C. Air, Incorporated, 201 Sixth Street, Racine, Wisconsin.

The official advised he did not have a flight plan for the plane and had no further information. He advised he was referring the matter to the Bureau for its information in view of the possibility that the two Negro females were prostitutes being transported across state lines.

The Milwaukee Division has recently through a confidential source obtained xerox copies of the flight log of the Lake Geneva Airways at Lake Geneva, Wisconsin which is located at the Playboy Club, Lake Geneva, Wisconsin. These copies reflected incoming flights to the Playboy Club and a review of the day by day logs maintained from March, 1974 through March, 1975 revealed the following names of individuals arriving at the Playboy Club in Lake Geneva. These names were extracted from the flight log and may or may not be identical to syndicate figures from the Chicago, Illinois area.

## Racine Probes Another Slaying

Special to The Journal

Racine, Wis. — Another murderer — the ninth in the Racine area since Dec. 20 — occurred early Saturday morning when Herman Hiler, 28, of Racine, was slain by a shot fired through the window of his home here.

Hiler, who was shot in the head, about 1:15 a.m., was unemployed and the father of five children ranging in age from 4 months to 9 years.

Detective Lt. Donald White said Hiler had been dropped off at his home several minutes earlier. Racine County Coroner Daniel Cunningham ordered the body removed to St. Mary's Hospital, where an autopsy will be performed.

No charges have been filed in two of the earlier deaths.

## Teen's death came quietly — at home

By JERRY KUYPER  
Staff Writer

Debbie got her wish. She was taken home to die.

Debra Ann Veasey, 13, 6355 14th Ave., died Monday at 8:48 p.m. in her father's house following a nine-year struggle with leukemia.

"She knew she was going to die," said her father, Richard Kamin, 42, "but she didn't want to die on any machine in a hospital."

Friday, June 13, Kamin drove to Milwaukee Children's Hospital to bring his daughter back to Kenosha.

"She knew she was coming home to die," said Kamin. "But she had always made me promise that when the time came, that she could die at home. She saw her grandmother (Mrs. Ann M. Kamin) die hooked up to a lot of machines in the hospital and she didn't want that.

"I suppose if it had to be, the way she died was the best way possible. She was on methadone and she had no pain, yet she was very alert. She could hardly talk towards the end. Then at 8:48 p.m. all she did was quit breathing. It was peaceful, but I guess it was how you would want it to be if it had to be."

Debbie was surrounded by family members and her pet dogs and cats when she finally succumbed to the disease that had been slowly whittling life from her.

Debra Ann Veasey and her father in 1978

"She wanted to be around her pets and all her brothers and us when she died and that's something you couldn't have in a hospital," said Kamin.

Debbie's cancer was detected

when she was 3.

"She tried every conceivable cure there was," said Kamin. "She was on an experimental drug program. What the doctors thought would work they tried. Debbie knew she could die at any time."

"We never kept anything from her," said her mother, Mrs. Alberto L. Veasey of Racine.

Debbie tried to be no different than any other child, but she also knew she didn't always have the strength to be as active as others.

Until two years ago she was still riding a bike and playing outdoor games like any other child. But with a difference. She would periodically make trips to Children's Hospital in Milwaukee for cancer treatments. Sometimes the days stretched from weeks into months.

After her plight was published in the Kenosha News in 1978 some benefactors raised funds to send her and her mother on a visit to Disney World at Orlando, Fla. She wasn't strong enough to attend Durkee School on a regular basis but in June of this year she still managed to graduate.

"She knew she wouldn't be going to junior high though," said her father. "But when she came home she insisted on doing everything herself. She was determined that even if she was going to die she wasn't going to

be a burden on anybody. We made a downstairs room into a bedroom for her. We had two beds in there. One for her and the other for either myself or her mother so someone could be by her at all times. She insisted on making her bed every day. She wouldn't let anybody else do it.

"The day she died she was the same way. She was awfully tired all day Monday but she was still alert. She wanted to be taken outside off and on, so we would put her in the wheelchair and let her stay outside for 20 or 30 minutes or so at a time.

"Two hours before she died she got up to go to the bathroom and she walked herself. She didn't want anybody to help. You have to remember this was a very sick girl. Everytime she woke up from a sleep she had to vomit.

"An hour before she died she looked at me and said, 'Dad, I'm tired.' All of us there, including her mother, me and my wife and her brothers knew it was close to the end. But all she said was that she was tired. Then she dozed off. And then she just quit breathing."

Funeral arrangements had not yet been made by the family today. Kamin said the little girl who fought for life down to the last hour would be buried in a Kenosha cemetery.

"She'll still be near us," he said.

**Workers complain about the lack of emergency medical aid at the power plant**

## **Want an ambulance**

# **Plant workers protest**

By **BARBARA HENKEL**  
Staff Writer

An estimated 200 skilled workers walked off the job today at the construction site of the Wisconsin Electric Power Co. (WEPCO) power plant in Pleasant Prairie.

They said they were protesting the lack of an equipped ambulance on the site. They said it can take 20 to 45 minutes for either of Pleasant Prairie's rescue squads to travel the two miles from their stations to an accident at the plant.

They said spokesmen for Wisconsin Associates, general contractor, claim ambulances reach the plant within six or seven minutes. The workers said that may be the time between the time the ambulance is called and the time it reaches the plant's gate, but is not the time from when an accident occurs until the ambulance reaches the injured party.

There have been no deaths since

construction began in 1977. As of this morning there were no figures available on the number of injuries or the number of times Pleasant Prairie's rescue units were called.

Officials of WEPCO and Wisconsin Associates were meeting as of deadline this morning on the issue.

An estimated 800 men remained on the job and work continued without any major disruption, a WEPCO spokesman said.

He said the plant has two safety officers and a licensed practical nurse.

Some of the workers were interviewed mid-morning. They said some ironworkers walked off the job early Tuesday, after a man fell 25 feet from a cooling tower. The workers said a company spokesman told them Tuesday not to report to work today until 8 a.m., instead of the usual 7 a.m.

They said they were met at the gates, and when discussion began

about the ambulance, were told by union stewards to either work or get off the site. The plant's on-site security men asked the workers to leave plant property.

Many of the men interviewed mid-morning today said a serious accident could occur and someone could die without immediate medical attention. They said an on-site ambulance, equipped with paramedics, could provide the needed service.

Workers said there have been cases of injured men transported to the hospital by pickup truck. They said a company representative told them he has asked for ambulance service, but was refused. Union representatives are given the same answer, they said.

No demonstration is planned for Thursday.

Workers said the company could purchase the necessary equipment from wages saved because the men walked off the job today.

Dear Sir or Madam:

As I am from Illinois as it is my home resident, but being laid off so I stay by friends here in Kenosha, Wisconsin, file my unemployment and in Ill and come back again here, I have been in city of Kenosha, Wisconsin March 8, 1982, and I do find things which surprise me as this city is small comparing from the city I come from Illinois. This all started on March 8, 1982 at Piggly wiggly lot on Washington Rd, Kenosha, Wisconsin, a red car or station wagon license no. [redacted] stood on the parking lot of Piggly wiggly on Washington Rd, Kenosha, Wisconsin, with two young men ages around one being in early thirties another one close to thirties of age. My car parked next to theirs so one of the men jump out and try to sell me radios, Televisions sets, stereo cassette and 8 track stereo and radios, even had cocaine, speed, marijuana, even had injections dopes to sell. Talking with these men finding out that they live in Kenosha, Wisconsin, these two young men are telling me that they are collecting disability social security since they were very young, as these men claim that they were put on as retarded, now if they would be retarded would they pass a driver license test, knew how to count money and even write very good if they want to. These young men claim that some people who live on [redacted] and [redacted] two couples who knows these young men from young age put them on retarded children, so now these young men are collecting social security on their father's benefits as they claim their father is deceased. What these young men claim that the people on [redacted] Kenosha, Wisconsin, and people on [redacted] Kenosha, Wisconsin, knew these men since they were children, so these people both couple went to their mother who was living at that time had no money and did not have no way how to put the these young men on social security, so the people on [redacted] Kenosha, Wisconsin, and people on [redacted] had money so the young men claim that these two couple had given their mother [redacted] money to put the young men on social security benefits since young age, so that these men never have to work in their lives and they do not work, and these young men claim they never did not work a days work in their lives but social security benefits, plus these young men claim that people on [redacted] Kenosha, Wisconsin are now retired, so these people on [redacted] drive around for these young men and find out who is home and if gone how long the people are gone on vacations or weekends, so these young men claim that these people on [redacted] tell these young men what house and street address, then these young men claim these young men go to that place during day hours and lock over the place, and then these young men lock over the doors if dead bolt locks or single locks the house and garage door has, if dead bolt then these young men claim they know what tools to take if single locks so if the door has a window they break the window and open the lock from inside, the young men claim they get lots of good stuff, and sometimes a radio or television does not work so they have on retired men on [redacted] Kenosha, Wisconsin, that fixes radios and T.V. as these men claim that retired man on [redacted] has lots of boxes upon boxes in his basement on [redacted] and this retired man on [redacted] can fix any old radio and T.V. as this retired man done this repair radios and T.V. for people since 1942 what these young men claim to me, and these young men claim that this retired man on [redacted] fixes radios and T.V. and etc, which means electric appliances, also sells vegetable plants every May and June month, and in fall these young men claim that this retired [redacted] men sell vegetables, and what these young men claim that these two brothers on [redacted] make over fifteen thousand dollars a year, and these young men claim that these men on [redacted] get all cold cash, and never report any part of that fifteen thousand dollars on income taxes to state or federal or social security taxes, and that these young men claim that these men on [redacted] get over twelve thousand dollars a year in interest money, as these young men claim that only one has his name on the money and collects the interest as these young men claim that one of these brothers got sick last fall so the younger brother force the older brother who was sick to sign off the money what ever the older brother had to the younger brother, so now the younger brother is suppose to have all the money on his name only. I did go by the house on [redacted] and if any one would see it would think a very poor family lives in that house, in fact it has two homes on that lot. So I feel that these men on [redacted] Kenosha, are beating taxes, plus being an aid to these young men by repairing radios and Televisions that are stolen from homes or garages, so I would call these men conspirators, also I would call these people on [redacted] conspirators too, as those retired people go around the city and find out who is home and who is not home and tell these so-called retarded young men to go to those places, and then these young men go and lock over the places that these people on [redacted] tell these young men where that home is, and then these young men know what to do, and what tools to take with them to break into these homes. These young men claim that this year the people on [redacted] told these young men that to go on [redacted] while the people were home. So these young men claim that they did get another person with them and went this year to [redacted] Kenosha, Wisconsin, and held up these people in [redacted] while the people were in their home that's what these young men claim they did as the people on [redacted] Kenosha, Wisconsin, told them to do. Now if this true then city of Kenosha, Wisconsin is not even safe in their homes at home even get held up while being home that is awfull. Also these young men claim to me that these people on [redacted] are even taking stolen goods to their car and then hauled away to another place so then the young men claim that no stolen goods are by them, neither by [redacted] neither by [redacted] only else where taken by people on [redacted]

These young men claim that these people on [redacted] and [redacted] are respected citizens of Kenosha, but no one does not know that these people on [redacted] and [redacted] are people who help these young men where to go and break ins to get radios and televisions and etc, and no one does not know that [redacted] fixes T.V. and radios and etc for these young men, and what these young men claim that [redacted] and [redacted] is one hand with these young men since 1970 and no one did not and will not ever ask these people on [redacted] and these young men as stolen goods are taken away to different places, and resold on parking lots and streets not only in Kenosha alone but also in different cities also. These young men claim that these people on [redacted] who help these young men live in that area over 50 years, also these young men claim that lady at [redacted] did and still does house work for cash money, and that lady on [redacted] [redacted] ve, claimed to these men that IRS has checked on her but these young men claim that that lady lied herself out of the mess she is, and got out of it like a welcome rose in June that smells nice, these young men claim that that lady did get a bundle of money from her parents who names are [redacted] as [redacted] and even gave that lot that lady has on the corner that lady lives on [redacted] was given to that lady by her parents [redacted] besides that lady bought all her furniture, awnings, landscapeing, aluminum siding on the house, even these young men claim this lady got twenty thousand dollars from her [redacted] in 1978, so that lady with her [redacted] husband bought that 1978 new concord car, and [redacted] took only house money, and now [redacted] is living on the Kenosha county as the house money is gone, but twenty thousand dollars these people on [redacted] has it, and the rest of cold cash these men claim went to Texas to that lady on [redacted], brother's daughter or niece who is married and has a hard time to make ends meet, so that lady on [redacted] gives all tax free money to that nieces of hers in Texas, as that nieces suppose to have three children. I asked these young men how do they know so much of these people on [redacted] and [redacted] Kenosha, Wisconsin, and these young men claim that these people on [redacted] and [redacted] knew each other for number of years, since these young men claim they were children, and in 1970 it was [redacted] told these young men to do break ins, and [redacted] these young men claim that ask them to have their stolen electrical goods fixed by [redacted] so these young men claim that [redacted] and [redacted] have one hand for number of years, real action started what these young men claim started in 1970. I told these young men that I would report them to FBI and these young men claim that FBI will not even bother to do anything about this matter even these young men call it a theft ring since 1970, as [redacted] and [redacted] will lie and deny it like [redacted] is checked by IRS since 1977, and people on [redacted] know how to wiggle themselves out of it, these young men claim it is best that if any FBI official would ask these young men, the people on [redacted] and [redacted] to take a lie detector test in order not to court, but these young men claim that no FBI got no guts to ask this theft ring to go under lie detector, and if they all go to court a few false witness will also appear so all three families that are in the theft ring will be free, these young men claim their mother was [redacted] but what these young men names are I do not know as today women marry again at times, so their mother would have a different name then theirs. I ask these men why they told me what I am writing to you so they told me they are telling me where to go for fixing stolen electrical appliances at [redacted] and where to get certain goods that are stolen and removed somewhere else by [redacted] These young men while talking to me never told me their names and neither people on [redacted] and [redacted] Kenosha, Wisconsin, so maybe if you look on Kenosha county assessor would have the names of those peoples who are in the theft ring since 1970. These young men claim if FBI would question they all know how to wiggle themselves out of this mess, so the best is ask the people on [redacted] and [redacted] and these young men to go under lie detector if not then take these all three families to a fast hearing and then to a fast federal jury as it is against the law to do as they all are doing, I sent my son to follow these young men with my friends car and my son [redacted] claims that these young men live on [redacted] Kenosha, Wisconsin, and my son claims he stop over and found out that young men on [redacted] have lots of dope and my son claims that these young men on [redacted] Kenosha, Wisconsin told my son to go to [redacted] and ask for [redacted] who is a expert of getting dope as my son claims that these men claim to my son that [redacted] from [redacted] is on parole from federal prison, and these young men told my son as my son claims that these men told my son to ask for [redacted] on [redacted] and ask for [redacted] on [redacted] and on [redacted] Kenosha, Wisconsin ask for for [redacted] as that young men [redacted] has dope, these men my son claims told my son that [redacted] have dope in their cars and homes, and also on [redacted] ask for anyone for dope, and my son wrote the streets addresses down, and gave it to me now, so so I see there is a dope ring also. these men told me that in Kenosha, a [redacted] got catch in dope, but these young men claim to me that these young men sold dope and broke into homes since 1970. and that [redacted] had fixed all electrical appliances these young men stole, and [redacted] has never paid a cent for income taxes for the money that lady made since 1946, and since 1977 IRS is after her but will never get them even [redacted] helps the young men to transport stolen goods someone else home since 1970, to me there is fraud, conspiracy, theft ring and dope ring in that area, and I do realize being a FBI does not mean you know what everything is going on in city of Kenosha, Wisconsin, so now the best is

to get a search warrant and go to [redacted] and check the basement of [redacted] Kenosha, Wisconsin, and then you will see it has lots of boxes with electrical repairs for T.V. and radios and etc, also will see lots of tomatoes and vegetable plants that will be ready for sale by May or June 1982, these young men claim that [redacted] gets fifteen thousand dollars for repairing electrical appliances like radio and T.V. and etc, and these young men claim that [redacted] Kenosha, Wisconsin gets over eight thousand dollars selling vegetable plants and in spring and vegetables in fall each year total of twenty-three thousand dollars, plus selling house plants like geraniums plants for graves people buy from [redacted], these young men claim that [redacted] are brothers only two of them live together. and [redacted] I went to them so they are elderly couple and that lady did claim to me that she does housework yet at three dollars and twenty-five cents per hour, but only cash money, but both husband and wife look very guilty, and they claim they can help me find things easily within next three weeks, and the three brothers who claim they are retarded on [redacted] Kenosha, Wisconsin, should be forced to pay back all social security benefits they got for nothing, these young men claim that President Reagan cuts off a three year old child, but Reagan will never do a thing for these young men who are put on retarded by [redacted] and [redacted] Kenosha, Wisconsin people, and have a search warrant on [redacted] to check for articles like lots of radios, clocks, t.v. and other electrical appliances, including dope, also have a search warrant for [redacted] and [redacted] Kenosha, Wisconsin, and search for dope in cars, garages, and homes of these places, and try to send enough men to search all at one time, be sure all men have search warrant before entering. While watching and waiting on 48th Street between 29th Ave and 30th Ave, I seen a woman in her thirties come out of the [redacted] house and go to through a alley between 29th Ave, and thirty Ave and she had a purse. at the next block of 45th Street beginning there stood a car a man and that woman from [redacted] Kenosha, went with that man. this happened around ten in the morning, then same day I went to Parkside store on 45th Street and 30th Ave there the same woman came to the corner of that store and take off with another black person as both men are black and that woman who came out of [redacted] is black woman, so check what that woman is doing so often on the street and taking off with black men in different hours of the day. Now if you send someone down in that area, tell all people whom it gets investigated that that area is under investigation for number of years, and now it is time to check it out, and if anyone refuses to go under lie detector, take these people to court soon as possible, as these young men claim that [redacted] and these young men from [redacted] after the [redacted] Kenosha set 1/3 of the money for selling stolen goods, dope and cocaine, any dope products are money for [redacted] people in worst condition then these young men are working, men who can use tools to break in, and know how to drive and know the value of money, pay their bills, and pass drivers tests to drive are not retarded, these young men are put on retarded but are able to work only [redacted] and [redacted] were the conspirators to put these young men on social security while young, what these young men claim as possible because these young men claim they make eighty thousand a year for selling dope the most money these young men claim to make and selling stolen goods these young men pick and fix from break ins that [redacted] tell these young men to go to. Do not mention this letter, only tell all the people whom are investigated that they were checked for number of years, as these young men claim they will knock me cold dead for complaining to anyone, if these young men can do anything like anyone so they should be forced to pay back the social security benefits plus interest and [redacted] should go to prison for putting young people on disability benefits that young men are not entitled this also includes that one that lives on [redacted] Kenosha, Wisconsin, and dope people should be made to go to prison too. These young men told me that in Kenosha at first National bank in Kenosha, So I am going to phone book to get the address for the first national bank and hoping this information is useful to your office, and break up the theft and dope ring, and get people pay their income taxes to state, Federal and social security as soon as possible. Be aware of denying and lying what will be done in all these people, as [redacted] do not have no money in banks, only keep at home and send it to Texas to that lady's nieces. These men claim that the lady on [redacted] claim to them that they made over three hundred thousand dollars since 1946 and no one will never get that money taxes, so now is the time to tax the money and get the fair share government should get and should of got long time ago. Hope you can settle this deal as soon as possible.

Source stated that most bars North of Green Bay are doing illegal gambling with these types of machines due to the casinos up in their area, which are not being bothered by State authorities. Bartenders in Racine and Kenosha feel that they are unnecessarily being discriminated against by not being allowed to have some sort of gambling machine in their establishment. With this idea in mind they buy these machines or rent them, and utilize them as casinos would so that they can compete for customers. Source advised that there are many bars that are making at least \$800 a week profit from each of the machines that they have in their bar, and this is based on utilizing them as betting machines instead of the machines being used for entertainment.

(X) D
